West Wyalong Public School Cooler Classrooms Program Update for parents and guardians

December 2020

Investing in our schools

The Cooler Classrooms Program is a \$500 million, five-year investment by the NSW Government to improve learning environments in public schools across NSW.

We are committed to delivering a quality, sustainable and cost effective program to ensure our students enjoy the healthy and comfortable learning environments.

Scope of works

At your school, the program will deliver:

 Air conditioning and fresh air ventilation in 17 classrooms and library spaces.

Installation works to begin

Installation works will begin Term 4, 2020.

Work will take place between approx 7am and 6pm, Monday – Friday and 7:30am – 3:30pm on Weekends.

It is estimated construction works may take up to 14 weeks. An installation plan has been developed to minimise disruption of construction works on school operations.

We will continue to work with the contractor, JR Electrical, to ensure any disruption to our neighbours is kept to a minimum.

If you have any questions about this project please contact us on the details below.

Progress summary

An air conditioning, heating and fresh air ventilation solution has been designed to meet the scope of works. JR Electrical. has been awarded the installation contract.
